REPLY TO THE ATTENTION OF
SE-5J

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

The Honorable Greg Goodnight
Mayor of Kokomo
City Hall
100 South Union Street
Kokomo, Indiana 46901

Re: Kokomo Dump Site in Kokomo, Howard County, Indiana
Site Spill Identification Number: C564
General Notice of Potential Liability

Dear Mayor Goodnight:

The U.S. Environmental Protection Agency has documented the release or threat of release of hazardous substances, pollutants and contaminants into the environment from the Kokomo Dump Site at 1130 South Dixon Road, Kokomo, Howard County, Indiana (the Site) and is planning to spend public funds to control and investigate these releases. EPA will take this action pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA), 42 U.S.C. §§ 9601-9675, unless EPA determines that such action will be done properly by a responsible party or parties. Responsible parties under CERCLA include the current and former owners and operators of the Site, and persons who generated the hazardous substances or were involved in the transport, treatment or disposal of the hazardous substances at the Site. Under Section 107(a) of CERCLA, 42 U.S.C. § 9607(a), where EPA uses public funds towards the cleanup of the hazardous substances, responsible parties are liable for all costs associated with the removal or remedial action and all other necessary costs incurred in cleaning up the Site, including investigation, planning and enforcement costs.

EPA is currently planning to conduct the following actions at the Site:

1. Develop and implement Site plans including a Site-specific Health and Safety Plan, a Site Emergency Contingency Plan, and a Work Plan;
2. Establish Site security;
3. Determine the extent of buried drums and contamination in soil;

4. Develop and implement a plan to control, contain, and/or remove drums and highly concentrated contaminated soil;
5. Perform sampling and analysis to determine disposal options; and
6. Consolidate and package hazardous substances, pollutants and contaminants for transportation and off-site disposal in accordance with the EPA Off-Site Rule, 40 C.F.R. § 300.440.

EPA has received information that the City of Kokomo (the City) may have owned or operated the Site or generated or transported hazardous substances that were disposed of at the Site. By this letter, EPA notifies the City of its potential liability with regard to this matter and encourages the City, as a potentially responsible party, to agree to reimburse EPA for costs incurred to date and to voluntarily perform or finance the response activities that EPA has determined or will determine are required at the Site. EPA is willing to discuss with the City the entry of an appropriate administrative consent order under which the City would perform or finance response activities and reimburse EPA for its costs.

If a consent order cannot be promptly concluded, EPA may issue a unilateral order under Section 106 of CERCLA, requiring the City to perform specified work. Under Sections 106 and 107 of CERCLA, the City may be liable for reimbursement of EPA's costs, for statutory penalties and for treble damages for noncompliance with such an order. If the City is a qualified small business, enclosed is a *U.S. EPA Small Business Resources Information Sheet*, which may be helpful if the City is subject to an EPA enforcement action.

Because of the conditions described above, EPA believes that response activities at the Site must be initiated as quickly as possible. Therefore, EPA does not intend to utilize the special notice procedures available under Section 122(e) of CERCLA.

As a potentially responsible party, the City should notify EPA in writing within 10 calendar days of receipt of this letter of its willingness to perform or finance the activities described above and to reimburse EPA for its costs. The City's response should be sent to:

Sally Jansen
U.S. Environmental Protection Agency
Superfund Division
Enforcement and Compliance Assurance Branch
Enforcement Services Section 1, SE-5J
77 West Jackson Boulevard
Chicago, Illinois 60604-3590

If EPA does not receive a timely response, EPA will assume that the City does not wish to negotiate a resolution of its potential responsibility in connection with the Site and that the City has declined any involvement in performing the response activities.

The City's response should indicate the appropriate name, address, and telephone number for further contact with the City. If the City is already involved in discussions with state or local authorities, engaged in a voluntary cleanup action or involved in a lawsuit regarding this Site, the City should continue such activities as it sees fit. This letter is not intended to advise the City or direct it to restrict or discontinue any such activities already underway; however, the City is advised to report the status of those discussions or actions in its response to this letter and to provide a copy of its response to any other parties involved in those discussions or actions.

EPA would like to thank the City's representatives for meeting with EPA's representatives on March 22, 2012. If the City needs further information regarding this letter, you may have your counsel contact Maria Gonzalez of the EPA Office of Regional Counsel at (312) 886-6630.

Due to the nature of the problem at this facility and the attendant legal ramifications, EPA strongly encourages you to submit a written response within the time frame specified herein. We hope you will give this matter your immediate attention.

Sincerely,

A handwritten signature in black ink, appearing to read "Jo - El-Zein".

Jason El-Zein, Chief
Emergency Response Branch 1

Enclosure

cc: Mr. Lawrence McCormack, Esq.
Mr. Chris Cooper

U.S. EPA Small Business Resources Information Sheet

The United States Environmental Protection Agency provides an array of resources, including workshops, training sessions, hotlines, websites and guides, to help small businesses understand and comply with federal and state environmental laws. In addition to helping small businesses understand their environmental obligations and improve compliance, these resources will also help such businesses find cost-effective ways to comply through pollution prevention techniques and innovative technologies.

State and Tribal Web-Based Resources

State Resource Locators

www.envcap.org/statetools

The Locators provide state-specific contacts, regulations and resources covering the major environmental laws.

State Small Business Environmental Assistance Programs (SBEAPs)

www.smallbiz-enviroweb.org

State SBEAPs help small businesses and assistance providers understand environmental requirements and sustainable business practices through workshops, trainings and site visits. The website is a central point for sharing resources between EPA and states.

EPA's Tribal Compliance Assistance Center

www.epa.gov/tribalcompliance/index.html

The Center provides material to Tribes on environmental stewardship and regulations that might apply to tribal government operations.

EPA's Tribal Portal

www.epa.gov/tribalportal/

The Portal helps users locate tribal-related information within EPA and other federal agencies.

EPA Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations before an enforcement action has been initiated, businesses may be eligible for penalty waivers or reductions. EPA has two such policies that may apply to small businesses:

EPA's Small Business Compliance Policy

www.epa.gov/compliance/incentives/smallbusiness/index.html

This Policy offers small businesses special incentives to come into compliance voluntarily.

EPA's Audit Policy

www.epa.gov/compliance/incentives/auditing/auditpolicy.html

The Policy provides incentives to all businesses that voluntarily discover, promptly disclose and expeditiously correct their noncompliance.

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established a SBREFA Ombudsman and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. If you believe that you fall within the Small Business Administration's definition of a small business (based on your North American Industry Classification System designation, number of employees or annual receipts, as defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247), or go to their website at www.sba.gov/ombudsman.

Every small business that is the subject of an enforcement or compliance action is entitled to comment on the Agency's actions without fear of retaliation. EPA employees are prohibited from using enforcement or any other means of retaliation against any member of the regulated community in response to comments made under SBREFA.

Your Duty to Comply

If you receive compliance assistance or submit a comment to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act or related provisions.
